

“Creating opportunities to work strategically across the region with Multi- Sectoral partners”

EMHSCA

Eastern Peer Support Network

- Are you employed as a result of your lived experience with mental health and/or substance use issues?
- Are you interested in becoming a peer worker in future?
- Are you interested in connecting with other local people with a similar interest in peer participation?

The Eastern Peer Support Network conducts meetings every 3rd Wednesday of the month at various health and community services across the Eastern Region. Our aims are:

- to enable you to learn about what services are provided to consumers and carers within the region.
- to encourage networking amongst like minded people who wish to be part of the Peer Workforce in the east by the sharing of our combined wisdom.
- to provide targeted education, encouragement, and support to the local peer workforce.
- to circulate relevant information regarding peer related activities and opportunities.
- to keep you informed of changes within the sectors, including the introduction of the NDIS.
- to identify key issues and inform organisations about how to effectively engage, develop, and support the peer workforce in this region.

If you have any queries regarding the Eastern Peer Support Network please do not hesitate to contact
